

EXPLORER

REF.NO. 7H106AF01

Completely adjustable harness, light, durable and easy to wear.
Developed for use in via ferrata, adventure parks and rock climbing courses.

Main characteristics:

- new design of waist belt and leg loops, for superior comfort;
- floating waist belt and leg loops, to optimally centre them over the body;
- equipped with three buckles that make waist belt and leg loops fully adjustable;
- easily recognizable, orange belay loop, to reduce the risk of incorrect use;
- two spacious gear loops.
