## LYNX®

---

Modular crampon for ice and mixed climbing, with LEVERLOCK UNIVERSEL bindings. With interchangeable front points, LYNX crampons adapt to diverse activities, from snow couloirs to dry tooling.

---

**Short Description** Modular crampon for ice and mixed climbing, with LEVERLOCK UNIVERSEL bindings

---

- Selling Points**
- Configuration and length of front points can be modified with one screw:
    - long mono-point for dry tooling
    - long dual-point for gullies
    - asymmetrical dual-point for mixed climbing
    - short dual-point for ice climbing
  - LEVERLOCK UNIVERSEL bindings: compatible with all hiking and mountaineering boots with rear welts; the components (FIL or FLEX) make them adaptable to all types of boot toe (with or without welts)
  - ANTISNOW system, included with crampons, limits snow buildup in any snow conditions
  - Crampons come with a FAKIR storage pouch

- 
- Specification**
- Number of points: 14
  - Boot sizes: 35 to 45 with M linking bar (included); optional L linking bar fits boots sizes 40 to 50
  - Certification(s): CE, UIAA
-
